

THE ELEVENTH INTERNATIONAL CONFERENCE ON INTEGRAL METHODS IN SCIENCE AND ENGINEERING (IMSE2010)

UNIVERSITY OF BRIGHTON, UK
12th — 15th JULY 2010

CALL FOR PAPERS

The IMSE conferences are forums where scientists from around the world present their most recent work and exchange ideas on a powerful class of methodologies extensively used for solving mathematical models of physical phenomena and engineering processes.

Participation is open to all scientists and engineers whose work makes use of analytic and numerical methods, integral equations, ordinary and partial differential equations, finite and boundary element methods, conservation laws, hybrid approaches, vortex methods, signal processing and image analysis, etc.

The authors of contributed papers are requested to submit an abstract (not exceeding 300 words) containing the title of the talk, a summary, and the full institutional address, including the telephone and fax numbers and e-mail address, by 23rd April 2010.

Peer-reviewed conference proceedings are planned as in previous conferences. Detailed information will be given at the meeting.

Local Organiser:

Dr. Paul Harris, School of Computing, Mathematical and Information Sciences, University of Brighton, Lewes Road, Brighton, BN2 4GJ, UK.

e-mail: imse2010@brighton.ac.uk

Phone: +44 (0)1273 642533 Fax: +44 (0)1273 642405
